1. Since our original inquiry and subsequent Headquarters advice that it is unlikely that we would be able to retain the land mentioned in reference A, we have solved our problem locally. Three proposed sites for the receiver Station have been selected within the restricted area. This eliminates the problems connected with requesting use of [redacted] or private 25X1A2d1 owned property.

2, The three selections, while not ideal, will satisfy requirements. We have forwarded the specifics and map to [redacted] requesting their technical 25X1A6a opinion of the selections.
